KEY FACTS

- ▶ **Maintenance free**
For simple, low cost of ownership
- ▶ **Large filter area**
Provides a long service life and high dust holding capacity
- ▶ **No dust break through**
For assured performance
- ▶ **Patented, flexible pleat distance holders**
Allows a uniform air flow across the filter surface
- ▶ **Free from metal and fully incinerable**
For easy, environmentally friendly disposal

Construction

Macropac is based on non-woven media layers of varying efficiencies. The patented assembly method ensures that the media is pleated at optimised distances and held with flexible distance holders. In this way the filter packs are secured tightly in the frames, ensuring a good seal. Changing the filter is also a simple task requiring no tools.
